

DOUBLE YOUR PRODUCTIVITY. PUT IT INTO *HYPERDRIVE.*

Learn how our double folder upgrade can double your productivity, and improve operations by eliminating mistakes and downtime.

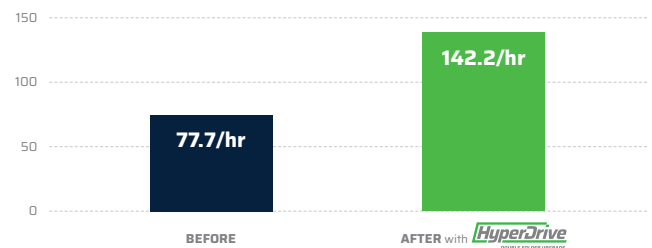

DOUBLE THROUGHPUT RATES USING YOUR CURRENT MACHINE AND OPERATORS.

With the new HyperDrive double folder system upgrade from AMS Controls, you can now double your machine throughput rates using the same floor space and operators. Not only does it double the productivity of your machines, but it also has the added benefit of greatly improving reliability since the upgrade uses high-reliability parts. This gives you more uptime and extends the life of your existing machines.

DOUBLE YOUR PRODUCTION

Avg. Parts Per Hour (hr)

The projected throughput increases are based on the performance demonstrated on a double folder machine with the HyperDrive upgrade as compared with the same machine with the original controls and hydraulic system.

TRYING TO DECIDE IF YOU'RE READY FOR THE HYPERDRIVE DOUBLE FOLDER UPGRADE?

CONSIDER THESE FAST FACTS:

DOUBLE THROUGHPUT RATES OF YOUR CURRENT MACHINE

An affordable upgrade that helps even the most productive facility double their capacity.

DOUBLE THE LIFESPAN OF YOUR CURRENT MACHINE

Increases the lifespan of your current machine 10-20+ years on average.

HIGHLY RELIABLE COMPONENTS WITH GREATER UPTIME

Avoid unnecessary downtime due to part failures or waiting for replacement parts.

UTILIZE THE SAME FLOOR SPACE & NUMBER OF OPERATORS

No need to deal with moving machines, expanding your facility footprint, or hiring new operators.

UPGRADE IS A FRACTION OF THE COST OF A NEW MACHINE

Get more out of what you already have, and at a fraction of the cost.

DOUBLE UP ON SAFETY

OSHA and operator-friendly upgrade with the FoldGuard clamp laser safety system.

ELIMINATES COSTLY MISTAKES

AMS Pathfinder Edge™ software removes manual data entry by operators that results in costly manufacturing errors.

INSTALLATION IS FAST

HyperDrive double folder upgrade can be up and running in 3-5 days.

BENEFITS

- Up to double throughput rate with same floor space and operators
- Integrated controls eliminate mistakes and downtime
- OSHA and operator-friendly safety system
- Installation and operator training provided

FEATURES

- New Rexroth hydraulic power unit
 - Variable-displacement pump and 10 gallon accumulator
 - Servo proportional valves and safety isolation valves for each axis
 - 3-year warranty
- New Pathfinder control and electrical system
 - 22" touch-screen display
 - MTS Temposonics absolute encoder on each hydraulic axis
 - Fluid temperature & level sensors, pressure transducers (4), oil filter sensors (2)
 - Indramat back-gauge servo motors
- FoldGuard clamp laser safety system
- Includes 3 years of Premium Support
- Buyer protection warranty
- Comprehensive diagnostics system
- Pathfinder Edge™ software provides integrated controls, automatically sequenced profiles, synchronized libraries, and uptime tracking
